3810 Shutterfly Road, Ste 200, Charlotte, NC 28217 Tel:(704)424-5448 Fax:(704)424-5648 www.norcomp.net

REACH Statement

The European Union's REACH Directive (EC 1907/2006) is designed to regulate the Registration, Evaluation, Authorization and Restriction of Chemical Substances. REACH legislation was finalized in December 2006 and has been in effect since June 2007.

In effort to address the requirements of the REACH regulation and ensure a reliable ongoing supply of NorComp parts, NorComp has contacted suppliers to confirm all necessary registration of in-scope substances in formulations, preparations, materials, or articles. In addition, suppliers have been requested to assess the potential presence of Substances of Very High Concern (SVHC). The current 247 SVHC, as of January 21st, 2025, are not intentionally added or used in the manufacture of NorComp products.

Please visit the ECHA website for the most up to date official version of the Candidate list:

<https://echa.europa.eu/candidate-list-table>.

The vast majority of NorComp products do not contain any of the published SVHC. It should be noted, however, that Lead (CAS No 7439-92-1) was added to the candidate list as of June 27th, 2018; A small number of NorComp parts may be impacted as they may contain a concentration level greater than the specified limit of 0.1% (weight by weight). *Please note that articles that contain greater than 0.1% lead concentration are RoHS 3 compliant using exemptions 6a/6c.*

If you require SVHC information for parts purchased from NorComp, please reach out to environmentalcompliance@norcomp.net; NorComp will provide SVHC information on a case-by-case basis.

If you have any further questions regarding NorComp's REACH position, please contact NorComp's Environmental Compliance Group via the following email address:
